Helen's mum Enid left for Johannesburg yesterday afternoon, and will have arrived at the hospital this morning. Helen is undergoing an operation to her pelvis and hip today. I was sent an update from Echoes, who received this email from Doctor Viv Davies who is in charge of the hospital at Kalene where Helen works.

'Helen has had a specialized procedure to insert a supporting mesh in to her aorta and they seem to have been satisfied with the result. On sat. eve. Helen had a fever and was not so well generally. She is having surgery to her hip and pelvis today (Mon) and there is also talk about plastic surgery to her facial injuries. Her mother flew out to J'burg on Sun eve

Please continue to remember Helen in your prayers, that she may make a full recovery.

Mark 11:22
And Jesus answering saith unto them, Have faith in God.
