Update on Helen

Thank you for your prayers for Helen. The car she was travelling in hit a tree, someone else was driving at the time. She has a broken pelvis and hip, and has sustained face injuries. She is in Lusaka hospital, and the surgeon looking after her is very experienced. Recovery time is expected to be around six weeks. Please remember her in your prayers. Also remember the driver, and two other passengers who were in the car at the time. One of them has a fractured skull, but I have no more details on this.
