## **Satellite Gets Pictures of Mysterious Shining Clouds**

Written by Monday, 09 July 2007 09:47

A new NASA satellite has recorded the first detailed images from space of a <u>mysterious</u> type of cloud called &quot;night-shining&quot; or &quot;noctilucent.&quot;

"And there shall be signs in the sun, and in the moon, and in the stars; and upon the earth distress of nations, with perplexity the sea and the waves roaring;"

—Luke 21:25
